

Dear Business Partners, Clients and Friends

The events of recent days have shocked not only Poland and Europe, but also the whole world. The scale of suffering and the tragedies of the war in Ukraine affected us directly, because they concern our neighbours and employees. In the face of war and human tragedy, we should unite and help together.

Helping and supporting is the goal of our Krzyżanowski Partners Foundation, which was established in response to the growing needs related to the arrival of Refugees from Ukraine to Poland.

The President of the Foundation, Jarosław Krzyżanowski, decided to organize aid on a large scale by implementing short and long-term goals. Almost 200 people are under our care and more Refugees in need, come every day. These are women with children and the elderly. Families come with their pets - we take care of them too.

We are providing safe accommodation, hot meals, legal and medical care, as well as access to education for children and youth. Thanks to the help of people of good will, local institutions and business partners, we managed to collect the things necessary for the daily functioning of the Refugees under our care.

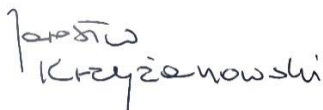

No one knows how long the war will last and when the Refugees will be able to return to their country and start rebuilding it.

We want to continue helping. We are trying to do it in a meaningful way and with great commitment. We present our actions so far below. With your support, we will be able to continue helping Refugees from Ukraine. We want to give them support and hope for a better tomorrow!

Our actions so far:

1. Provision of accommodation for 200 Refugees
2. Providing hot meals
3. Medical care, including psychological care
